**Product description:**

Orlando Galando ballasted basketball system transportable on wheels

The **Orlando semi-professional basketball** facility in **Garlando** is a ballasted facility ideal for more experienced **basketball** players

the steel **pole** is adjustable in height up to 3.05 metres, the **base** with dimensions 110x75x20 cm can be filled with water and reach a total weight of 90 KG, the two wheels installed on the base make it easier to move. The **scoreboard** is made of transparent **acrylic** and measures 122x72. It is supplied with a powder-coated metal **basket** and **net**.
