

## FC50H20 multisport electronic scoreboard

### Product features:

Product weight:

Certifications: UNI-EN 9554:1989

Warranty: 2 years

Dimensions:

Readability Corner:

Programmable team names: NO

Game time:

Team Score:

Period:

Time Out:

Acoustic signal: 120 db - 1 meter

### Product description:

#### FC50H20 multisport electronic scoreboard

The FC50H20 **indoor scoreboard** can be used for multiple **sports** including **basketball** , **volleyball** , **wrestling** , **water polo**, **five-a-side football** and many others.

With a **size of 140x73 cm** , it is particularly suitable for installation in **school gyms and small sports halls** .

The **readability of the information** is high, the scoreboard is in fact equipped with **high definition LEDs** which with a height of 20 cm for the stopwatch and team scores are visible up to a **distance of 90 meters** , while all the other figures reach a height of 15 cm and remain visible up to a **distance of 50 metres**, all the figures shown have a **visibility angle of 150°**.

The electronic **scoreboard** , thanks to its particular Plexiglass front panel, does not require protection, as it is **resistant to ball hits** as per **DIN18032-3 and UNI 9554:1989 regulations**.

The **scoreboard** allows you to **view the main information during the match** , including the score, timeouts for each team and sets won or fouls committed by team. It also allows you to **view the stopwatch** , the period and **ball possession or service**. (via 1 light point for each team).

The basic equipment includes **wall brackets and plugs** which simplify installation.

The **scoreboard** saves you on installation costs thanks to the possibility of being **controlled remotely** via the totally **wireless touchscreen console** (not included).
