

FC54H25 multisport electronic scoreboard

#### Product features:

Product weight:  
Certifications: UNI-EN 9554:1989  
Warranty: 2 years  
Dimensions:  
Readability Corner:  
Programmable team names: NO  
Game time:  
Team Score:  
Period:  
Time Out:  
Acoustic signal: 120 db - 1 meter

#### Product description:

FC54H25 multisport electronic scoreboard

The FC50H25 **indoor scoreboard** can be used for multiple **sports** including **basketball** , **volleyball** , **tennis** , **water polo**, **five-a-side football** and many others.

With **dimensions of 140x118 cm** , it is particularly suitable for **school gyms and medium-sized sports halls** .

The **readability of the information** is high, in fact, the scoreboard is equipped with **high definition LEDs** which with a height of 25 cm for the stopwatch and the score remain visible up to a **distance of 110 meters**, the other information has a height of 20 cm and are **visible up to 90 meters, all with a visibility angle of 150°**.

The electronic **scoreboard** , in this version, thanks to the particular Plexiglass front panel, does not require protection, as it is **resistant to ball hits** as per **DIN18032-3 and UNI 9554:1989 regulations**.

**The scoreboard** allows you to **view the most important information during the competition**, including the score, timeouts for each team and sets won or fouls committed by team. It also allows you to **view the stopwatch** , period and **ball possession or service** (via 1 light point for each team).

The basic equipment includes **wall brackets and plugs** which simplify installation.

One of the **biggest advantages** of the scoreboard is the possibility of being **remotely controlled** via the totally wireless **touchscreen console** (not included) , thus significantly saving on installation costs.
