

FS100N multisport electronic scoreboard

#### Product features:

Product weight:  
Certifications: UNI-EN 9554:1989  
Warranty: 2 years  
Dimensions:  
Readability Corner:  
Programmable team names: SI  
Game time:  
Team Score:  
Period:  
Time Out:  
Acoustic signal: 120 db - 1 meter

#### Product description:

FS100N multisport electronic scoreboard

The FS100 **indoor scoreboard** can be used for multiple **sports** including **basketball** , **volleyball** , **table tennis** , **handball**, **five-a-side football** and many others.

With a **size of 200x120 cm** , it is particularly suitable for installation in large **gyms and sports halls** .

Despite the size, the **readability of the information** remains high, the board is in fact equipped with **high definition LEDs** which, with a height of 30 cm, remain visible up to a **distance of 130 meters and a visibility angle of 150°**.

On the **Scoreboard**, of this particular version, it is possible to customize (via the appropriate **console** ) the **name of the teams** participating in the match, **the information** is shown at the top of the **scoreboard** , they have a maximum of 6 characters per team and have a height of 15.5 cm

The electronic scoreboard, in this version, thanks to the particular Plexiglass front panel, does not require protection, as it is **resistant to ball hits** as per **DIN18032-3 and UNI 9554:1989 regulations**.

**The Scoreboard** allows you to **view the main information during the match** , including the score, timeouts for each team and sets won or fouls committed by team. It also allows you to **view the stopwatch** , the period and **ball possession or service**. (via 1 light point for each team).

The basic equipment includes **wall brackets and plugs** which simplify installation.

One of the advantages of the FS series is that it can be controlled via the **touchscreen** also be used **wirelessly** by combining an **FS2 Radio Receiver** , thus saving on installation costs.

**console**
