Product description:

E68 by **DIAMOND** is a self-powered computerized programmable elliptical.

Refined design and highly reliable components allow it to produce work of up to **400 Watts** for a user weighing up to 160 kg.

Excellent **stride length** , 53.3 cm, allows deep stimulation of the lower limb, up to the buttock.

The possibility of **synchronized training** with the upper limbs makes it an excellent simulator of the push-step of **cross-country skiing** .

Interactive console, with multicolor LEDs, will always offer new training stimuli to users of all levels.

The heart rate is detected and monitored through the **hand pulse system, integrated wireless heart rate monitor receiver** . **T34 heart rate monitor** as standard

Among the accessories supplied we find: **MP3 input, Speakers, USB for charging your devices, Bluetooth for Kinomap* and iConsole+ apps, Fan, Bottle cage, Support for smartphones and tablets**
