Product description:

R48 by DIAMOND is a **professional recumbent bike** with self-powered programmable computerized **cycle ergometer** function.

Refined design and highly reliable components allow work of up to **400 Watts** to be produced for a user weighing up to 160 kg

Seat with high pressure absorption, adjustable on a diagonal track with quick release lever and **ABS backrest**, perforated to improve the comfort of exercises, allowing you to easily find your ideal position.

Interactive console, with multicolor LEDs, will always offer new exercise stimuli to users of all levels.

Ideal compendium of post-traumatic/post-operative recovery protocols.

The heart rate is detected and monitored through the **hand pulse system, integrated wireless heart rate monitor receiver**. **T34 heart rate monitor** as standard

Among the accessories supplied we find: **MP3 input, Speakers, USB for charging your devices, Bluetooth for Kinomap* and iConsole+ apps, Fan, Bottle cage, Support for smartphones and tablets**
