Product description:

R44 by **DIAMOND** is a professional **recumbent bike** with **programmable computerized cycle ergometer** function powered by electricity.

Refined design and highly reliable components allow it to produce work of up to **380 Watts** for a user weighing up to 160 kg.

Seat with high pressure absorption , adjustable on a diagonal track with quick release lever, **ABS backrest** , perforated to improve the comfort of exercises, allows you to easily find your ideal position.

Interactive console, with multicolor LCD, will always offer new exercise stimuli to users of all levels.

The heart rate is detected and monitored through the **hand pulse system, integrated wireless heart rate monitor receiver** . **T34 heart rate monitor** as standard

Among the accessories supplied we find: **MP3 input, Speakers, USB for charging your devices, Bluetooth for Kinomap* and iConsole+ apps, Fan, Bottle cage, Support for smartphones and tablets**
