

Professional Climber Diamond Stepper L36

Product features:

Maximum User Capacity: 150 Kg

Console:

Heart Rate Detection:

Dimensions Open:

Product weight:

Certifications: CE, ROHS, EN957

Warranty: 12 months for professional use

Product description:

L36 by **DIAMOND** is an innovative and versatile **professional stepper ergometer** , designed to support the **workout** of both beginners and competitive users.

The machine is self-powered with **zero emissions** , can be placed anywhere in the room, and constitutes a fundamental step in any **lower limb training** circuit.

Thanks to superior level components and targeted engineering, **L36** by **DIAMOND** offers the user a **fluid movement** , without jerks at the end of the stroke, a good neutrality on the sacrolumbar corset.

Through the 20 **pre-set programs**, with **constant Watts** or **incremental HRC**, **L36** guides and supports the athletic work of a user up to 150 kg at the limit of **633 Watts** .

The **heart rate** is detected and monitored through the **hand pulse system**, **integrated wireless heart rate monitor receiver**.

T34 heart rate monitor as standard
