

## Chest Press Plate Loaded Diamond

### Product features:

Maximum User Capacity: 160 Kg

Dimensions Open:

Product weight:

Warranty: 12 months for professional use

Maximum loadable weight:

### Product description:

**DIAMOND 's Iso-Lateral Chest Press** was designed based on human movement.

The possibility of loading the arms independently allows divergent and independent movements for optimal biomechanics.

**Isolateral movements** allow the user to **train** with both limbs together, independently or alternately.

The seat, **comfortable and ergonomic** , is adjustable to different heights so as to adapt to all users.

The starting weight of the single lever arm is only 3.2 kg, so as to make the **machine** accessible to all users, including patients undergoing physiotherapy rehabilitation.
