

Lat Pulldown Plate Loaded Diamond

Product features:

Maximum User Capacity: 160 Kg

Dimensions Open:

Product weight:

Warranty: 12 months for professional use

Maximum loadable weight:

Product description:

The **DIAMOND Iso-Lateral Lat Pulldown** was designed based on human movement.

The possibility of loading the arms independently allows divergent and independent **movements** for optimal **biomechanics**.

Isolateral movements allow the user to **train** with **both limbs** together, independently or alternately.

The counterbalanced system allows for very light starting weights, perfect for **rehabilitation**, seniors and beginners.

It is possible to adjust both the seat and the **knee** support padding, so as to adapt to all users.

The **starting weight** of the single **lever arm** is only 0.5 kg, so as to make the machine accessible to all users, including patients undergoing **physiotherapy rehabilitation**.
