

Adjustable T-BAR Plate Loaded Diamond

Product features:

Maximum User Capacity: 160 Kg

Dimensions Open:

Product weight:

Warranty: 12 months for professional use

Maximum loadable weight:

Product description:

The **DIAMOND 300 Series T-Bar** is a specific machine for training the entire **back** , with a synergistic intervention of the entire **posterior muscle chain** .

The **adjustable platform** moves on a **double guide rail** made of alloy steel which guarantees, together with the linear load-bearing structure, safe and rapid adjustment and resistance of the entire structure over time.

The **handle** is **adjustable to 5 distances** , thus allowing the user to broaden the range of exercises.
