

Foldable steel ball trolley with wheels

Product features:

Material: 1.5mm thick tubular steel

Finish: Powder-coated

Dimensions:

Mepa: Disponibile

Product description:

Ball trolley , made of **painted steel**, **lockable with padlock**, usable with **balls of all sports** .

A peculiar characteristic of this ball basket is its sturdiness due to its **single block construction**.

The trolley, made entirely of powder-coated steel, does not require any assembly and is **ready for use**.

The upper part can be **closed using a padlock** (not included).

With a **capacity of approximately 20 balls**, depending on the type (Basketball, Football, Volleyball, etc.), it is **equipped with 4 floating wheels** .

This ball trolley is particularly **suitable for schools, gyms** and places with continuous public access.
