Product description:

The **Combo Leg Press 45°/Linear Hack Squat** by **DIAMOND** is the solution that allows you to have a machine capable of **training the front and rear muscles of the legs, buttocks and calves** by combining the work of two specific machines.

The **backrest** in the **Hack Squat** version, if raised, will become the push plate where you can perform the **Leg Press**, while the push plate in the **Hack Squat** version has an insert where you can attach what will become the backrest of the **Leg Press at 45°**.

Adjustable footrest on multiple levels. High density foam padding. **4 disc holder pins** for easy and immediate storage.
