Product description:

The 45° pantograph version Leg Press of the **DIAMOND 500 Series** allows for global strength training that involves almost **all the leg muscles** with a physiological load curve thanks to the progressive pantograph system.

The **quadriceps, hamstrings, gluteal muscles** are activated but also the **hip muscles** and the core which supports the stabilization of the pelvis during the movement.

The machine guarantees an **easy starting system** thanks to the safety lever. **Backrest adjustable on 3 levels.**

High density **foam padding** , PU leather upholstery "for furniture". **2 disc holder pins** for easy and immediate storage.
