### Product description:

The Prone Leg Press from the **DIAMOND 500 Series** is the ideal machine for the complete training of the entire muscular push chain of the **lower limb**, with the possibility of **bipodalic, monopodalic or alternating work**.

**Push and forearm support pads** in high density foam, PU leather upholstery "for furnishings".

**Ergonomic front handles** for optimal grip. The **push plates** are articulated so as to guarantee a physiological position of the ankle.
