Product description:

The **DIAMOND 750 Series Shoulder Press** has independent converging arms that allow a **natural upward thrust movement** .

The **double grip on each arm** gives the user increased comfort and the possibility of varying the exercise mode.

Alloy steel slide bars that ensure smoother movements. **End cap in anodized aluminum alloy** which makes it even more resistant as well as giving it a decidedly more elegant look.

High density foam padding, PU leather upholstery "for furnishings" and **ABS protective casing** . Machining of aluminum pulleys with CNC process; the bearings are built with high quality material to withstand high intensities and for a long time.

Coated metal cable with **resistance capacity up to 1400 kg**.
