Product description:

DIAMOND 's 750 Series horizontal press features an independent diverging motion that mimics natural motion.

This particular design is ideal for encouraging users to go further in their fitness journey and also allows you to **train your limbs isolatedly** with unique comfort.

Alloy steel slide bars that ensure smoother movements. **End cap in anodized aluminum alloy** which makes it even more resistant as well as giving it a decidedly more elegant look.

High density foam padding, PU leather upholstery "for furnishings" and **ABS protective casing**.

Machining of aluminum pulleys with CNC process; the bearings are built with high quality material to withstand high intensities and for a long time. **Coated metal cable with resistance capacity up to 1400 kg.**
