Weight pack:

Product description:

The **DIAMOND 750 Series Leg Extension** is a leg extension machine that works and strengthens the quadriceps muscles of the thighs.

All adjustments are accessible from the seated position and the adjustable starting position provides five different starting points for maximum user comfort. **Alloy steel slide bars** that ensure smoother movements.

End cap in anodized aluminum alloy which makes it even more resistant as well as giving it a decidedly more elegant look. High density foam padding, PU leather upholstery "for furnishings" and **ABS protective casing**.

Machining of aluminum pulleys with CNC process; the bearings are built with high quality material to withstand high intensities and for a long time. **Coated metal cable with resistance capacity up to 1400 kg.**
