Product description:

The **DIAMOND 750 Series Adductor Machine** is a fundamental machine for the progression and strength training of the **adductor muscles**.

The **adjustable starting position** offers easy entry/exit as well as a customizable range of motion. The **side-mounted stack** allows for convenient and quick weight adjustment. Alloy steel slide bars that ensure smoother movements.

End cap in anodized aluminum alloy which makes it even more resistant as well as giving it a decidedly more elegant look. High density foam padding, PU leather upholstery "for furnishings" and **ABS protective casing**.

Machining of aluminum pulleys with CNC process; the bearings, built with high quality material to withstand high intensities and for a long period. **Coated metal cable with resistance capacity up to 1400 kg.**
