**Product description:**

The **DIAMOND 750 Series Gluteus Machine** is the ideal machine for **targeted training** of the buttocks in the **gym** ; in fact, the extension of the rear leg to the machine is considered one of the best exercises for the development of the **muscles of the large, medium and small gluteus**.

The **rotating platform** system offers natural movement, thus providing greater variety and **greater muscle involvement** . Alloy steel slide bars that ensure smoother movements.

End cap in anodized aluminum alloy which makes it even more resistant as well as giving it a decidedly more elegant look. High density foam padding, PU leather upholstery "for furnishings" and **ABS protective casing**.

Machining of aluminum pulleys with CNC process; the bearings are built with high quality material to withstand high intensities and for a long time. **Coated metal cable with resistance capacity up to 1400 kg.**
