Product description:

The Sissy Squat, Bench from the **DIAMOND 750 series** is the ideal partner for training **quadriceps, glutes, thighs, back and abdominals**. Designed to keep your legs in a vertical position, you have maximum concentration during use.

Obviously, the quality is also superior in this product with the **non-slip footrest to obtain maximum grip**. We couldn't leave the leg support lever in plastic so we opted for aluminium, a touch of quality for a product worthy of our brand.

Obviously the cushions are padded with high density sponge and covered in leather. We wanted to achieve maximum comfort during use and we succeeded. Fully adjustable, fits most users. Recommended for the development of **quadriceps and glutes**.
