Product description:

The **DIAMOND All In One** machine is the perfect multifunction station with which it will be possible to train any muscle group.

Designed to replace the most popular machines found in any commercial gym with the advantage of **saving space** without losing functionality.

This machine actually performs the functions of: power rack, dual pulley, smith machine, high/low pulley, vertical leg press, pull-up bar, lever arms, dip station, t-bar, disc rack and barbell. The dual pulley has 34 adjustments.

Movement of the smith machine balance wheel via **high-quality ball bearings** on linear guides.
