Product description:

The **DIAMOND All In One** machine is the perfect multifunction station with which it will be possible to train any muscle group.

Designed to replace the most popular machines found in any commercial gym with the advantage of **saving space without losing functionality**.

This machine actually performs the functions of: **power rack, dual pulley, smith machine, high/low pulley, pull-up bar, dip station, t-bar, record rack**. The dual pulley has 18 adjustments. Movement of the smith machine balance wheel via high-quality ball bearings on linear guides.
