Product description:

The **DIAMOND Power Rack Pro** is an **All-In-One training** station where you can perform **full body workouts** in complete safety.

The structure, which features **uprights with a 75 x 75x 3 mm section and 35 holes** for adjusting the supports, was designed to meet the standards of intensive use in contexts such as that of the classic gym or cross training centre.

The **double layer scratch-resistant epoxy powder coating** increases its importance.
