### Product features:

Maximum User Capacity: 160 Kg

Dimensions Open:

Product weight:

Warranty: 12 months for professional use

Maximum loadable weight:

### Product description:

The **DIAMOND Foldable Wall Power Rack** is an innovative rack engineered for **wall mounting** . It can be **folded outwards** to save space, maintaining all the features and solidity of a standard power rack.

Designed with a **hinge system** with locking pin, it meets all safety standards while remaining easy to install.

The **distance from the wall of 44 cm** facilitates the customer's installation needs as it takes up little space. **Laser-cut holes** (50mm distance) and front laser cutting 1-25 digits, a total of 25 scale numbers, allow the user a wide and precise positioning of accessories.

**Powder coated finish, scratch resistant.**
