Product description:

Plastic shower trellis 50x50 cm hygienic, practical, economical, the PVC shower grate is the ideal solution in public showers, such as gyms, sports centres, swimming pools and schools.

It can be installed without any difficulty, and thanks to the particular **interlocking system** , it can also be used as a **footrest**.

Each tile is **made of PVC and has a side size of 50 cm** and a height of 2.5 cm.

Being perforated, **it allows excess water to drain and easy drying**.

PVC is very resistant to mold and guarantees **high durability over time**.

Available in three colors , Black, Blue or Red, it adapts perfectly to any environment.
