Product description:

Steel sheet cabinet with glass door Cabinet for clinic and infirmary in powder-coated sheet steel with glass door.

An indispensable piece of furniture in changing rooms, clinics and infirmaries , this cupboard made of sheet metal has **three sides in tempered glass** that allow you to see its contents.

Inside, there are **4 shelves**, also in sheet metal, **which can be positioned as needed**.

The glass door **can be closed using a key lock**, making it particularly suitable for storing medicines and first aid supplies.

The wardrobe does not rest directly on the floor, but is equipped with **4 adjustable feet for perfect leveling**, which **also allow cleaning operations** , which are essential especially in the outpatient setting.
