

1 kg soft rubber trial shot put ball

Product features:

Material: Eraser

Diameter: 105 mm

Casting Ball Weight: 1 Kg

Product description:

1 kg soft rubber trial shot put ball Designed for **indoor circuits** and training, this shot put ball is covered in a **layer of soft rubber to aid grip**.

This ball produced in Italy by Trial is made of **soft, cross-linked synthetic rubber** , **soft and non-bouncy, absolutely non-toxic** . Preparatory to the shot put, it allows you to anticipate the age of learning the correct technical gesture.

The shot put (also improperly called shot put because it is considered within the throwing disciplines) is **both a male and female athletics specialty** , in which the athlete tries to throw a metal sphere as far as possible.

Made of cast iron and covered in rubber, this model has a **diameter of 105 mm and a weight of 1.0kg**.
