#### **Product description:**

The new version of the **XT300** has been updated with the internal solutions of the new xt260 in order to improve the performance of the previous version. **This new concept creek kayak** designed for extreme use even in large volumes of water, offers those who use it excellent speed and great precision in maintaining the set lines, **agile in changes of direction and transmits sensations of great ease of usage** . The low center of gravity and the planing bottom guarantee safety, stability and easy skiing.

Despite its size, the **XT300** allows for extreme use and the easy execution of any maneuver .

**Equipment:** four handles, two snap hook anchor points, ergonomic seat with lateral thicknesses, comb foot clips, adjustable back rest and emptying cap.
