### Product description:

The KAYAK FREESTYLE HELIXIR designed by the champion Quim Fontané, in collaboration with the famous shaper Guillaume Respaud, was created by our company EXO KAYAKS in an exclusive polyethylene edition.

GuiGui-Prod, a world leader in the design and production of freestyle kayaks in composite material, is the perfect partner to create this **revolutionary shape**. The collaboration with a brand with proven experience guarantees this project **a certain success**.

The set-up specifications are as follows:

- **Simple, high-performance and intuitive set-up system, designed to be extra-light and resistant.**
- **Adjustable backrest with rope system.**
- **Set of footrest foam, already shaped to fit your boat.**
- **Over-thruster included.**
- **Adjustable seat with Exo Rail technology.**
- **Central foam block: compact and rigid for better hull reactivity.**

**Helixir 2018 Medium** available for the **weight range from 70 kg to 90 kg, maximum height 1.85 cm.**
