

XTC-XT CREEK kayak

Product features:

Material: Polyethylene

Maximum User Capacity: 100 Kg

Product weight:

Length:

Length:

Like Kayak: Fiume

Product description:

Suitable for all **river paddlers** who aspire to paddle on **vertical routes** or in volume taking advantage of the characteristics of the planing bottom of the XT class, combined with an amplified and redistributed volume.

With this **kayak EXO** aims to offer a product **suitable for both more experienced paddlers and those who are still developing technically** . Approaching the most technical routes with the **initial stability of a flat surface** is an irreplaceable help. At the same time **the XTC** maintains **easy handling and speed** , typical characteristics of its two smaller sisters XT300 and XT260.
