

Professional dust line maker

Product features:

Material: steel 1,5 mm

Finish: Powder-coated

Product description:

The **professional dust line marker** is complete with directional wheel and brush distribution roller.

This trolley is essential for **football, rugby and any other sport** that requires a **clearly visible playing field**.

Extremely **easy to use**, it allows you to draw precise and well-defined lines in just a few minutes.

The descent of the powder is regulated by the internal brush, driven by one of the two rubber wheels. This single-wheel management system allows you to easily create even dotted lines. In fact, you just need to tilt the trolley to stop the "driving" wheel and placing it back on the ground where you want to tracing.

Dust tank volume 27 litres.

The trolley is made in gray or green, according to availability

Made in Italy quality, produced entirely in our factories.
