

Basket system trasportable on wheels with MDF backboard

Product features:

Material: 2 mm thick steel

Finish: Zinc-coating

Product weight: 50 kg

Pole section: 40X40 mm

Mepa: Disponibile

Product description:

The **Gana Sport Basket system** with **MDF (Medium-density fibreboard) backboard** is the solution chosen by individuals, schools and sports associations for playing basketball in a simple and safe way.

The base of the system is made of **powder-coated steel** with a section of mm. 40x40. The ballast on the base gives more **stability to the system**. It is also equipped with a perforated plate, to get the chance to lock the system to the ground (the pin is included) for a **total safety** during the use.

The upper part of the system, used for **adjusting the playing height**, is made of **galvanized steel, anti-rust and weatherproof** for outdoor use.

The **MDF backboard**, with a surface of 98x96 cm, guarantees an **excellent ball bounce** and it is equipped with **steel hoop** and **nylon net in according to regulations**.

The **height of the basket** can be **adjusted to multiple positions**, up to 3,05 mt.

The **Gana Sport Basket system with MDF backboard** is completed with **protection pad**, foam inside and covered by PVC material.
