Product description:

The brand new **Everfit** branded **space-saving treadmill** model, Tfk 355 Slim, is the new generation of space-saving treadmills and is characterized by aesthetic and functional enhancements, such as the drink holders that complete the console and the cross bar that increase stability , but above all they are equipped with a **new easy opening/closing system** , which allows you to operate in maximum comfort and safety, **without the need to unscrew anything** .

The supplied motor has a continuous power of 1.75 CHP with a maximum peak of 2.75 HP and allows you to reach a maximum speed of **14 km/h** , starting from 0.8 km/h with increments in steps from 0 .1 km/h.

The running surface measures 42 x 127 cm , is cushioned by **12 elastomers and an Air Cushions system** , and it is possible to tilt it manually to **3 different climbing levels**.

The console has a large 113x63 backlit **LCD display** where it is possible to constantly view time, distance, speed, calories and pulse, detected via the appropriate manual Hand Pulse sensors. The console is equipped with **smartphone/tablet support**.

The TFK 355 Slim treadmill has **12 preset programs** in memory, with automatic speed variation, 1 body fat test and the classic free manual program.

Once you have finished your exercise, you can completely fold the tool and move it thanks to the practical wheels.
