

## Everfit Tfk-855 Slim Hrc space-saving electric inclination treadmill App Ready 3.0

### Product features:

Motor: 3,00 Hp DC  
Speed:  
Inclination: elettrica 12% su 12 livelli  
Race Plan: 510 x 1400 mm  
Tape thickness: 1,6 mm  
Shock Absorbing System:  
Roller diameter:  
Maximum User Capacity: 120 Kg  
Console:  
Heart Rate Detection:  
Multimedia equipment:  
Dimensions Open:  
Dimensions Closed:  
Packaging dimensions:  
Product weight:  
Weight of the packaged product:  
Certifications: CE, ROHS, EN957  
Warranty: 2 years

### Product description:

The Everfit **Everfit Tfk 855 Slim space-saving treadmill** is equipped with a very powerful **3 CHP continuous motor** with a maximum peak of 4 HP which allows it to reach a maximum speed of **20 km/h**.

It will be possible to vary the speed from the controls on the console and through the buttons on the right handrail.

The running surface is very large and comfortable, measuring **51 x 140 cm** and is cushioned by **8 elastomers with an Air Cushion system**.

The TFK 855 slim is equipped with an electric inclination, adjustable **on 12 different levels** up to a maximum of **12% of climb** through the controls on the console and the **buttons on the left handrail**.

The console is **equipped with 5 white LED displays** from which you can always keep an eye on the time, distance, speed, altitude, inclination level, pace (step per km), calories and pulse, detected via the appropriate **manual Hand Pulse sensors** or, for more accurate detection, **via a heart rate monitor (Optional) integrated wireless receiver**.

You can adjust the incline and speed using the **Quick Incline and Quick Speed** buttons in the console (3,6,9).

The equipment is completed **by a practical tablet/smartphone support, 2 bottle holders and Bluetooth speakers to listen to your music**.

You can choose up to **12 preset programs** , **3 Countdown (time, distance, calories)**, **3 HRC prog**  
**heart rate, 3 customizable USER, 1 body fat test**, and the free manual program.

The structure is very robust, has a weight of approximately **71 kg** and can **support a user with a maximum weight of 120 kg**.

The TFK 855 slim has a **very fast and efficient opening/closing system** , with 2 simple steps the treadmill will close completely in just **26 cm of thickness**.
