

Toorx Trx Smart Compact Space Saving Treadmill

Product features:

Motor: 2,00 Hp DC

Speed:

Inclination: Manuale su 3 livelli

Inclination:

Race Plan: 440 x 1230 mm

Tape thickness: 1,6 mm

Shock Absorbing System:

Roller diameter:

Maximum User Capacity: 100 Kg

Console:

Heart Rate Detection:

Dimensions Open:

Dimensions Closed:

Packaging dimensions:

Product weight:

Weight of the packaged product:

Certifications: CE, ROHS, EN957

Warranty: 2 years

Product description:

The **Toorx Trx Smart Compact space-saving treadmill** is an innovative carpet, aesthetically very refined with a simple opening system, the younger brother of the Active Compact.

Equipped with a **2.0 CHP continuous motor** with a maximum peak of 3.0 HP which will allow you to reach a **maximum speed of 14 km/h** starting from a minimum of 1 km/h, with increments of 0.1 km/h.

The **running surface measures 44 x 123 cm** and is **cushioned** using **elastomers** which will guarantee a high percentage of absorbed impact. Furthermore, the platform can be manually tilted to 3 different levels.

The **Toorx Smart Compact treadmill** has a spacious console, equipped with a **backlit LCD display** that allows you to always keep under control the time, distance, speed, calories and pulse, detected **using the appropriate manual sensors**.

In memory we find 12 **preset programs** for 3 target levels: time, distance, calories.

Once you have finished your training **it will be possible to completely fold the treadmill completely** by pressing a button and simply rotating a knob on the upright. once closed you can **move it around your home without problems** thanks to the wheels positioned on the base. The closure is one of the strong points of this treadmill.

The structure can support a user with a **maximum weight of 100 kg**.
