Product description:

The **Toorx Wlx 70 lifting station** is suitable for isotonic exercises such as weight lifting and squats.

The station has a guided barbell which guarantees **maximum safety and professional style training** .

The barbell supports are **mounted with ball bearings** for greater smoothness without tearing, with safety quick release.

The Smith Machine Wlx 70 is equipped with 2 safety devices with hooks to prevent accidental falls and/or crushing, a rear traction bar and 4 chromed disc holders for 25 or 50 mm cast iron, with adapter and safety clips.

The structure has a weight of 87 kg and allows a load of up to 300 kg.
