Roller diameter:

Maximum User Capacity: 100 Kg

Console:

Dimensions Open:

Dimensions Closed:

Packaging dimensions:

Product weight:

Weight of the packaged product:

Certifications: CE, ROHS, EN957

Warranty: 2 years

Product description:

Toorx WalkingPad treadmill with Mirage display is characterized by a smart, essential and super flat design. The patented "double fold" folding system and the innovative high-tech solutions adopted make it irresistible for a young and pretentious audience.

The Toorx **WalkingPad treadmill** it is equipped with a **1 HP DC motor** and allows you to reach a **maximum speed of 6 km/h** , starting from a minimum of 0.5 km/h with increments in steps of 0.5 km/h.

The "MIRAGE" Technology adopted in this version ensures that the surface of the engine cover panel appears completely uniform and smooth when WalkingPad is turned off. Training data appears, lighting up clearly, when WalkingPad is turned on.

The cushioning system is made with a layer of shock-absorbing gel foam and the running surface has a surface area of 430 x 1200 mm coupled with a high-density polyester membrane with an ultra-smooth surface.

It has a white backlight LED display incorporated which hides under the surface of the engine cover panel.

WalkingPad is ultra compact with a thickness of only 12.9 cm

Available in mineral gray color applied with IML (In Mold Labeling) technology which allows you to obtain a highly effective metallic surface, complementing a high-level satin finish.
