Product description:

The Toorx Wbx 40 bench has a sturdy structure, with reinforced steel tubes with a 50x50 mm square section and can support a user with a maximum weight of 110 kg (user + weight load).

The cushions are padded to ensure maximum comfort and have two-tone coverings.

The seat/backrest is adjustable in different positions, as is the cushion, to offer a wide choice of exercises.

Once you've finished your workout, you can fold the bench to minimize the bulk.
