### Product description:

**Toorx Wbx 90 barbell bench** is ideal for those who want **to train with a quality product**.

Equipped with leg extension and arm curl included which allows you to train comfortably.

Made with reinforced steel tubing with a 50x50x1.5 mm square section which makes it stable and robust.

The rollers are made of high density foam. The seat measures 405x400x50 mm, is padded with two-tone upholstery and has an adjustable inclination on 3 levels.

The backrest has an adjustable inclination on 5 levels, is padded with a two-tone covering and measures 770x290x50 mm.

The arm curl cushion measures 430x260x50 mm.

The maximum weight of the barbell support is 120 kg, the maximum weight of leg extension is 50 kg.

Furthermore, it is possible to fold the tool to take up little space.
