Product description:

The Toorx Wbx 70 Power Tower is a product that allows you to perform a wide range of exercises at home.

The structure is very robust, it is made up of reinforced square-section steel tubing and can support a user with a maximum weight of 120kg.

Among the various exercises that can be performed with the WBX-70 Power Tower there are pull-ups, parallel bars, push-ups on the floor... and many others.

Furthermore, by purchasing the two kits separately, it is possible to add a support for the punching bag and a support for the fast ball to the station.

Available accessories:

KIT-SACCOWBX-70 Punching bag kit: support + stabilizer + fixing brackets.

KIT-PALLAWBX-70 Kit for fast ball: support + plate + hook with ball bearing (with the possibility of fixing also to the wall)

(Punching bag and speed ball not included)
