Product description:

Stepper JK 5030 is an extremely practical and functional home exercise stepper , excellent for performing cardio exercises and quickly burning fat.

The stepper is equipped with stress-resistant **hydraulic pistons** . Equipped with **an LCD display** where you can view time, steps, steps/minute and calories.

The effort adjustment on **12 levels** occurs mechanically by acting on both ring nuts located above the hydraulic pistons.

The handlebar is ergonomic. Thanks to its small size, the stepper is foldable and can be stored in a small space.
