Product description:

The **Jk 6067 multifunction station** is a complete product, which will allow you to carry out a wide range of exercises inside your home.

It has a very robust structure , made up of 60 x 60 x 3 mm square section steel tubing and can support a user with a **maximum weight of 150 kg**.

An excellent tool, ideal for both beginners and trained people.

Thanks to this Smith Machine, it is possible to perform numerous exercises such as deadlifts, squats and weight lifting in total safety.

The **frame of the JK 6067 weighs a total of 77 kg** and the structure offers maximum safety and stability during exercises.

It has 8 locking positions that allow you to attach the barbell rests at different heights.

Structure completed by a traction bar with 25 mm diameter handle. Guided barbell with 32 mm diameter handle.
