Table football auctions: Aste Uscenti

Playing field:

Product description:

The **Garlando F-ZERO table football with protruding rods** is made with quality materials, great attention to detail and maximum attention to the safety of small players, thanks to the telescopic rods.

The **MDF cabinet** with melamine covering, in cherry colour, has a thickness of 15 mm. It features L-shaped legs in MDF with melamine covering.

The **MDF playing field** with melamine covering has a grass green background and white lines, which reproduce the stadium ground.

Equipped with tubular rods with a diameter of 13 mm and a thickness of 1 mm. In the version with the protruding rods, the end parts of the rods are covered by plastic protections for greater safety.

Scoring goals is easier and more fun thanks to the **goalkeeper who rotates on himself** and the particular configuration of the players, arranged according to the scheme: 1 (goalkeeper), 2 (defenders), 4 (midfielders), 3 (forwards). Color of men: red and blue.

Simple and immediate **recovery** of balls in the goal from two ball catchers placed behind the goals with built-in scorekeeper.

Scoreboards incorporated into the ball catcher.

2 white-black soccer ball effect balls supplied.

This table football maintains an excellent quality/price ratio
